dedication

Nature that fram'd us of four elements,
Warring within our breasts for regiment,
Doth teach us all to have aspiring minds:
Our souls, whose faculties can comprehend
The wondrous Architecture of the world:
And measure every wand'ring planet's course,
Still climbing after knowledge infinite,
And always moving as the restless Spheres,
Will us to wear ourselves and never rest,
Until we reach the ripest fruit of all
That perfect bliss and sole felicity,
The sweet fruition of an earthly crown.
